 - Overview of how this work began and what has been accomplished
 - Strategy for targeting in FY18 and beyond
 - Incorporate any workshare items related to NJDEP's LCR re-eval effort

 - status of NJDEP efforts and path forward
- Newark/PVWC MOU for Cedar Grove Reservoir
- Programmatic Issues observed during EPA field work
 - GWUDI evaluations
 - Representative monitoring at systems w/multiple sources
 - Database issue w/ non-detect chlorine residual (i.e. <0.2 mg/L) showing as 0.2 mg/L (most recently observed for Bloomfield)
